

«On the Wing» performed Exhibition
5th -19th December 2010

Organisation: Maja Gehrig
Location: t'Brandweer Maastricht, Capucijnenstraat 21, 6211 RN Maastricht

30 local and international artists were involved in the «Waiting in the wings» performance festival. For a week they gained their creativity together to create a lively no-stage festival that lasted for three days.

«On the Wing» is an exhibition formed of the props, sets and documentations of the «Waiting in the Wings» festival.

The absence of the performers has practical reasons – none the less it is also led by the interest in the experiment – to transform live-art into a static form without losing its theatrical magic.

As in the festival, visitors move through a live-Installation and are physically involved and connected to the scenery.
